PROJECTS

Web Based College Placement System

I designed a dummy static website for College Placement Cell, which will be helpful for the cell as well as for the student to get better Placement. It was designed using HTML, JS, CSS and as a backend I used PHP. To collect data from the user ,Database was created in phpmyadmin.

Website - precigemlaboratories.com

I had developed and designed the website under the project in the company....
This was from Delhi, India.

Website- engeotechconsultant.com

I had developed and designed the website under the project in the company....
This was from Jabalpur, India.
